Flag Day is observed each year on June 14 to honor the adoption of the first national flag on June 14, 1777. The resolution adopting the flag declared: “That the flag of the thirteen United States be thirteen stripes, alternate red and white; that the union be thirteen stars, white in a blue field, representing a new constellation.” The original flag reflected the thirteen states of the Union, and as the nation expanded westward, new stars were added for each state admitted. Today the flag bears fifty stars, the last added in July 1960. Our flag symbolizes the freedom secured by Patriots during the Revolutionary War. In 2026 we celebrate the 250th birthday of the United States of America.

Flag Day is June 14th
